

NEBOSH Construction Certificate

Starting Afternoons in September 2009 – 60% off Funding Available.

This **level 3 National Construction Certificate in Health and Safety** is a qualification aimed at managers, supervisors or safety representative in any industry, who may have either a full or part-time responsibility for assisting their company in implementing or maintaining Health and Safety legislation.

This qualification focuses on national standards and management systems, enabling candidates to discharge effectively workplace responsibilities.

Target

Aimed at managers, supervisors & safety personnel within the construction industry. It's likely to prove useful for those concerned with the management of buildings who may need to ensure that contractors are working safely

Distance learning?

Yes we can even provide you with lecture notes, class room audio and power point to study remotely.

Certification

The course is evaluated by means of two exams, one for each module as well as a practical inspection, with subsequent report to be produced.

Dates

The course consists of 34 lecture afternoons plus 2 examination days, with optional revision workshops.

Modules

NEBOSH National Construction Certificate consists of (NGC1) Management of Health & Safety, (NGC2) Managing and Controlling Hazards in Construction Activities and a health and safety practical application (NCC2) undertaken in a workplace situation.
