

SHE Knows... all **YOU** need to know about **H&S**

NVQ Level 7 Diploma in Strategic Leadership & Management

Health and Safety NVQs are the ideal path for many working within the safety industry as they allow the candidate to complete their portfolio of **work-based evidence** alongside their day-to-day job.

As these qualifications are competence-based, candidates must demonstrate their level of competence in line with the course standards/criteria as part of a portfolio. Assessments will take place with your allocated assessor to ensure that your evidence/responses are suitable. Valid evidence includes workplace observation, recognition of prior learning, examination of work product, witness testimonies and professional discussion, amongst other things.

Evidence requirements are broken down and specified in modules with all cross referencing is undertaken for you.

NVQs are fully recognised by the **Institution of Occupational Safety and Health (IOSH)** and also **the International Institution of Risk and Safety Management (IIRSM)** for its Chartered Members as CPD.

SHE Knows offers NVQs in Occupational Health & Safety at levels 3, 5 & 6 with City & Guilds, as well as levels 3, 6 & 7 with ProQual.
